

Sadara Development Investment Company

Message from the Founders

We, Ibrahim and Abdullah, sons of Mohammed Al-Sheikh, present **Sadara Development Investment Company**—the legal entity continuing our commercial and industrial journey spanning over four decades under the **Al-Sheikh Commercial and Industrial Group**.

Our vision is driven by a firm belief that institutional integration and unified efforts are the cornerstone for achieving sustainable growth and building an investment entity capable of competing locally, regionally, and globally.

Sadara is more than a legal entity—it's a strategic step toward enhancing operational efficiency, expanding partnerships, and attracting high-value investments aligned with **Saudi Arabia's Vision 2030**.

Abdullah Al-Sheikh

Ibrahim Al-Sheikh

About Sadara Development Investment

Strategic Vision

Unified ownership and management under one umbrella

Best Practices

High efficiency with corporate governance standards

Sadara Development Investment Company is a diversified holding company serving as the official legal entity overseeing all subsidiaries of the **Al-Sheikh Commercial and Industrial Group**.

Operating from **Al-Khobar, Saudi Arabia**, Sadara supervises a diverse portfolio across vital sectors including real estate, oil and gas, telecommunications, security systems, manufacturing, and operational services.

The company aims to **maximize value creation** through expanding its investment base, diversifying activities, and attracting promising opportunities locally and regionally.

Vision, Mission & Values

Vision

To be a leading force in building sustainable economic entities in Saudi Arabia and the region through high-impact investments and strategic partnerships that contribute to the national vision.

Mission

Manage and develop a diversified investment portfolio founded on sound governance, innovation, and operational excellence—empowering subsidiaries and maximizing long-term returns.

Our Core Values

Excellence

Highest standards of quality in all operations and investment decisions

Transparency

Honesty, clarity, and integrity in communication and reporting

Empowerment

Enabling teams and subsidiaries to achieve sustainable growth

Innovation

New solutions and impactful investments driving transformation

Responsibility

Prioritizing community development and sustainability

Diversified Investment Portfolio

Sadara encompasses subsidiaries across key strategic sectors, carefully selected to reflect market aspirations while achieving sustainable growth and attractive returns.

Telecommunications & IT
Advanced digital infrastructure, fiber-optic networks, and systems integration

Industrial Security
Advanced security systems for critical facilities and operational readiness

Real Estate Development
High-quality residential and commercial projects with sustainability standards

Oil & Gas
Chemical materials and technical support for drilling and exploration

Petroleum Services
Roadside stations and petroleum operations supporting logistics infrastructure

Operational Services
High-efficiency field services for infrastructure, industrial, and energy projects

Facilities Management
Operating and maintaining buildings with integrated asset management solutions

Manufacturing
Consumer and industrial cleaning products for local and regional markets

Plastic Industries
Wide range of plastic products with focus on innovation and excellence

Strategic Investment Approach

- Efficiently utilizing shared resources and expertise
- Readiness to expand into new, promising sectors
- Diversifying income sources and minimizing risks
- Achieving synergy among sectors to create added value

Saudi Call: Telecommunications Excellence

400+

Qualified Professionals

Technical and administrative experts

1992

Established

Over 30 years of excellence

Al-Sheikh Telecommunications Company (Saudi Call) was established in **1992**, evolving from authorized distributor for Nokia and Ericsson with **100+ branches** to a strategic pillar in telecommunications and infrastructure.

Today, Saudi Call is a **trusted partner** delivering vital projects including design, supply, and implementation of advanced technological systems across Saudi Arabia.

Comprehensive Service Domains

01

Telecommunication Infrastructure & Fiber-Optic Networks

OSP & FTTH/FTTR execution, underground and aerial cabling, network interconnection for Dawiyat and major telecom operators

02

Industrial Security & Integrated Protection Systems

HCIS-approved systems including perimeter fencing, surveillance, access control, and early warning for sensitive facilities

03

IT Infrastructure & Data Centers

System integration, data center construction and operation, wired and wireless networks for digital transformation

04

Industrial Security Contractor

Ebreez Arabia: Strategic Real Estate

Ebreez Arabia serves as the **real estate and investment** arm of Sadara, specializing in management and development of commercial and residential assets in **Al-Khobar City**.

Premium Property Portfolio

Competitive Advantages

- World-Class Operations**
Advanced facilities management and sustainable maintenance
- Market Advantage**
Positioned to benefit from 2026 foreign ownership regulations
- Strategic Locations**
Heart of major cities and commercial zones with easy accessibility
- Mixed-Use Diversity**
Office, retail, residential, and leisure spaces for Diversified revenue

Established

Over a decade of excellence

Drilling Materials Company commenced operations in **2013** from the **Second Industrial City in Dammam**, establishing itself as a **reliable local manufacturer** of drilling fluid additives and specialized industrial minerals.

The company operates under the **highest standards of quality and sustainability**, with a vision to become an **innovative and trusted Saudi manufacturer** at regional and international levels.

Core Capabilities

-  **Manufacturing**
Drilling fluid additives and industrial minerals meeting API standards for HPHT wells
-  **Technical Support**
Customized solutions with on-site field support and real-time performance testing
-  **Diversification**
Products for construction, cosmetics, automotive, and water treatment industries
-  **R&D Innovation**
Dedicated center for eco-friendly and biodegradable formulations
-  **Export Services**
Distribution to GCC, North Africa, and Asia markets

Major Projects: NEOM, New Jazan Airport, King Salman International Complex for Maritime Industries, Two Holy Mosques Projects, Infrastructure and Dam Projects	
API 13A	Certified Testing Center
ISO 14001	Environmental Management
ISO 9001	Quality Management
ISO 45001	Health & Safety

Plastic Ultimate Quality Products

Plastic Ultimate Quality Plastic Products has emerged as a **leading local manufacturer** of high-quality plastic products, serving Saudi and GCC markets through efficient supply chains and advanced production capabilities.

Manufacturing Excellence

Blow & Injection Molding

Containers from 500ml to 30 liters for diverse industrial and consumer sectors

PET Bottle Preforms

High-precision preforms meeting international standards for beverage and food manufacturers

Multi-Color Printing

Professional printing solutions for customized packaging with high-quality graphics

Industrial Containers

220-liter drums and upcoming 1000-liter IBC containers for heavy industries

Strategic Clients

SABIC, Chevron (Caltex Lubricants), Saudi Industrial Detergents (SIDCO), Reza Hygiene, Pioneer Lab, Oil Chem, and manufacturing companies across Eastern Province and Gulf region

Quality Certifications

- ISO 9001:2015 – Quality Management
- ISO 14001:2015 – Environmental Management
- ISO 45001:2018 – Health & Safety
- GMP Certified since 2020

Jovae (Britex): Cleaning Solutions

Jovae – Britex Detergents Factory produces **high-performance household cleaning and disinfectant solutions**, manufactured by Saudi hands in accordance with the **highest national quality standards**.

Britex combines **high quality with affordability**, maintaining full compliance with **SASO standards** to ensure cleanliness and comprehensive protection for families and communities.

Comprehensive Product Range

Laundry & Home Detergents

Powder, liquid detergents, and fabric softeners for effective cleaning and fabric protection

All products comply with **SASO standards** and are manufactured using **advanced production lines with Good Manufacturing Practices (GMP)**.

Available across major retail chains and online at: britexksa.com

Salam Roads: Petroleum Services

Salam Roads Petroleum Services Company specializes in petroleum, energy, and support services, serving as a strategic arm bridging energy and transportation sectors.

Integrated Service Solutions

Fuel & Service Stations

Network of integrated stations including fueling, vehicle maintenance, restrooms, restaurants, mosques, and rest areas on regional highways

Energy Sector Support

Advanced technical solutions for drilling and production operations with logistical management for oil and gas sites

Sustainability Operations

Eco-friendly policies including energy management, resource efficiency, and innovative solutions to reduce emissions and waste

Strategic Positioning

Expansion Plans

Developing service stations in **strategic locations** along highways in the **Eastern Province**, with expansion plans covering other regions across the Kingdom using **smart monitoring and quality management systems**.

Target Sectors

- Government entities and contractors
- Land transport and logistics companies
- Drilling and oilfield operators
- Travelers and end-users on major highways

Future and Expansion Investment Sectors

Sadara Development Investment Company is expanding its industrial and service portfolio in alignment with Saudi Arabia's Vision 2030, capturing high-value opportunities across vital sectors for sustainable growth and economic value.

Advanced Manufacturing

New production lines in packaging, engineering plastics, and industrial raw materials to enhance industrial integration and local content.

Pharmaceutical & Medical

Entering pharmaceutical manufacturing and medical disinfectants, focusing on fast-moving consumer products.

Energy & Chemicals

Expanding in drilling additives and specialized chemicals with emphasis on innovation and localization.

Sustainability Focus

- Building materials and WPC components
- Industrial waste treatment
- Circular economy solutions

Digital Infrastructure

- Cybersecurity solutions
- Data centers and management
- Smart infrastructure systems

Upcoming Strategic Plans

01

Geographical Expansion

Establishing new operational units and distribution centers across Saudi Arabia to strengthen logistics and customer service.

02

Strategic Acquisitions

Exploring acquisition opportunities in priority sectors to accelerate growth and enter new markets.

03

Joint Ventures

Forming local and international partnerships to exchange expertise and establish regionally impactful projects.

04

Industry 4.0 Adoption

Implementing smart factory concepts and digital transformation to improve efficiency and reduce costs.
